

CARPENTRY & JOINERY

Site Carpenter Pathway

Apprenticeship Level 2

THE BEST YOUNG CARPENTERS! GET INTO CAREER MODE

The Benefits of an Apprenticeship

Apprenticeships offer great opportunities for people of all ages; an Apprenticeship is a job with training to industry standards, enabling you to enter a recognised occupation. All Apprenticeships are employer led, and as well as providing long term earnings, they also give you the ability to progress.

- You'll earn a wage as you're learning and are entitled to paid holidays.
- You can earn 10% more after studying on a Level 3 Apprenticeship than if you went straight in to work.
- 90% of apprentices remain in employment, either with their current employer or another company.
- 85% of employers participate in Apprenticeship programmes and consider them a good thing.
- You can train to post graduate level without incurring any university fees.
- By passing an independent End Point Assessment, you'll join thousands of people acquiring a modern and recognised qualification.

Apprenticeship Overview

The occupation involves carrying out skilled work, primarily using timber products, either on a construction site, or in a workshop, creating and installing building components.

Site Carpenter Pathway

A Site Carpenter will normally work on a building site, or in domestic and commercial premises, preparing and fixing building components, from the initial erection of a new building, through to the installation of all necessary fixtures and fittings, as well as a range of repair and maintenance activities.

What You'll Learn

- Site carpentry skills including measuring, marking out, fitting, cutting, splicing, finishing, positioning and securing
- Installing window and door frames, linings, floor joist coverings, straight partitions and straight staircases

- Install doors, ironmongery, wall and floor units, cladding and staircase components
- Erect inclined roofs with gables, joists, roof coverings and components
- Use, maintain and store hand tools, power tools and associated equipment
- Understand the key aspects of health, safety and welfare good practice

80% of your qualification will be gained in the workplace, although you may attend sessions in College that will cover the remaining essential areas of your training.

During your Apprenticeship, you will have a dedicated Work Based Tutor who will train you to industry standards; support your time in employment; and coach you to pass your End Point Assessment.

Entry Requirements

Entry requirements will be determined by individual employers. The Apprentice must have at least Level 1 Functional Skills, but Level 2 is preferred.

How will I be Assessed?

The apprentice must complete all elements of the onprogramme learning to achieve the assessment gateway requirements.

An end-point assessment will assess the knowledge, skills and behaviours required to undertake the work of a Site Carpenter.

The employer, in consultation with the training provider, will make the final decision on when the apprentice is ready to progress to the end-point assessment stage, based upon achievement of the on-programme and assessment gateway requirements.

Supporting Your Learning and Wellbeing

We have a range of dedicated support and wellbeing services including **FREE** travel, financial support, and impartial advice and guidance. Throughout your Apprenticeship, you'll also receive one-to-one support from your dedicated Work Based Tutor, helping you to achieve your ambitions.

Future Opportunities

Alongside your studies, you'll have a unique opportunity to be part of the University of Bolton's EXCEED Programme.

This will give you a range of additional skills and experiences, and includes masterclasses; university visits; access to industry experts; and mentoring and support with your university application, perfect for that next step into Higher Education.

On successful completion of this Apprenticeship, you could progress onto full-time employment, professional job-specific qualifications, Higher Apprenticeships or a degree programme.

The achievement of this standard will meet the requirement of the Construction Skills Certification Scheme (CSCS) 'Advanced Skilled Worker' standard, which is widely recognised as a 'licence to operate' in a skilled construction trade.

Following further experience and study you could work as:

- A Carpenter, earning up to £40,000 per year
- A Furniture Maker, earning up to £30,000 per year
- A Window Fabricator, earning up to £25,000 per year

Why Choose Us?

We're an elite College, and part of the University of Bolton Group, offering you a gateway to all of Greater Manchester's vast range of fantastic opportunities for specialist careers, university degree courses and higher Apprenticeships. We have an excellent track record of success with apprentices not only passing, but acquiring distinction grades!

We'll reward your achievements with trips to The Anderton Outdoor Activity Centre and the opportunity to apply for the prestigious Duke of Edinburgh Award.
